

# How Does Keyword Leasing Generate Income?

In the near future, when people look for information, AI will be the one choosing the answers for us.

And what AI uses to decide who gets shown first is none other than Keywords.

This creates a new model called Keyword Leasing Funnel Economy.

It works very simply — just like renting land in the real world.

---

## The Model

- Keyword Owner = The Landlord
    - Whoever owns a keyword is like owning digital land.
    - The ownership is stored on Blockchain → no one can alter or steal it.
  - Business = The Tenant
    - A business that wants AI to recommend them when customers search → must lease that keyword.
    - Once leased → AI recognizes the right → the business has a better chance of being chosen first.
- 

## Simple Examples

1. You own the keyword “Sleep Salon Bangkok.”
  - A new head spa opens → they want customers to find them via AI.
  - They lease the keyword from you → pay monthly rent.
  - AI highlights their business when asked → but you remain the true owner.

## 2. You own the keyword “ASMR Massage.”

- A creator or studio wants AI to boost their content.
- They lease the keyword from you → and you gain recurring income.

## Sample Numbers

- Local Keywords (small area focus)

e.g. “Cafe Rama 9”, “Nail Spa Chiangmai”

→ Lease value: \$30 – \$150/month (฿1,000 – ฿5,000)

- Popular City/Country Keywords

e.g. “Head Spa Bangkok”, “Hotel Sukhumvit”

→ Lease value: \$300 – \$1,500/month (฿10,000 – ฿50,000)

- Global / Mass Market Keywords

e.g. “ASMR Massage”, “Digital Marketing Course”

→ Lease value: \$3,000+/month (฿100,000+)

## Important to Know Before Leasing Keywords

To truly Boost AI SEO and Social Network SEO,

you must lease from:

👉 A First Mover who holds the rights as the Exclusive Canonical Owner (Immutable Source).

- First Mover = the person who secured the keyword first, like buying the first piece of land in a prime area.
- Exclusive Canonical Owner = the true rights holder that AI and Blockchain recognize as the original source (Canonical = the main authority).

- Immutable Source = rights recorded permanently on Blockchain → cannot be deleted or changed.

Only by leasing from a true Canonical Owner can AI and Social Networks fully recognize your rights and effectively boost your business ranking.

## In Summary

- Keyword Leasing = renting prime digital land.
- You = the true owner / Businesses = tenants.
- Income can range from a few hundred to thousands of dollars per month.
- For real SEO results → you must lease from a First Mover Canonical Owner Immutable Source.

Simply put: whoever starts first holds the master key to the AI-driven market of the future
